White Christmas*

Protecting our Christmas

Our Christian values underpin our British Identity. It's why they're under attack, not just from Islamisation, but also from the Politically Correct authorities who put immigrants before us, the British people.

Christmas is being stealthily and ruthlessly dismantled and replaced.

We've all heard of Winterval, it's the

Politically Correct replacement of our traditional Christmas

– an engineered replacement complete with polar bears, penguins, and snowflakes to eradicate our

traditional nativity scenes, with baby Jesus, Joseph, Mary, and the Three Wise Kings all to be airbrushed out.

The PC brigade can only destroy our traditions by stealth because they know that if roused, the British will stand up and resist

the destruction of all we hold dear. The British National Party is the only political party that is fighting to save our collective British Identity. This is not just a fight to save

Christmas it's the battle for the very survival of our British nation and for the future of our children.

Fenwick is a loved and respected Great British retailer. As such, the BNP appeal to Fenwick to set an example by focusing on traditional Christmas themes instead of mindless consumerism promoted by clowns, circuses and Mad Hatters... come on Fenwick, that's not Christmas!

“The BNP is leading the fightback. This is Britain! It's OUR country, OUR people, and OUR nation. Christmas is our most treasured traditional event, and one that we will fight to protect and preserve.” – Reverend West

Reverend West (centre) is currently on 'trial' for teaching the truth about The Crusades to A-Level students. This is just the latest PC attack on our Christian heritage. As well as *Protecting our Christmas*, the BNP is *Defending the Rev* in his crusade to preserve our British identity.
