

CAMERON'S CHRISTMAS

“Instead of gifts and goodwill this Christmas, David Cameron is crucifying white British children like me on his altar of Political Correctness. I’m homeless, hungry and cold. If only I was a Syrian ‘refugee’, I’d be taken care of.”

– Sarah, 9 and homeless

1.6 Million children in Britain currently living in *severe* poverty.

1 in 9 children this winter are living in poverty in Britain.

More than 100,000 children in Britain will wake up homeless on Christmas Day.

Cameron sends £12.6 Billion abroad in foreign aid each year to 20 of the most corrupt nations on the planet.

Cameron is spending £Millions on bombing Syria this Christmas.

Cameron is housing thousands of Syrian 'refugees' while white British children are forced to suffer in silence.

Sacrificed on the altar of Political Correctness

"Peace and goodwill" is the traditional season's greeting. This Christmas, however, the only 'gift' that the British Government is giving is greater poverty through more austerity, bombs for Syria and war instead of peace.

The future of British children is being sacrificed on the altar of Political Correctness – the politicians put immigrants first and the British people to the back of the queue. It's a disgrace!

Not only is Cameron's government betraying our people, but using our money to wage foreign wars, destroy lives and kill people.

The bombing and military interference in Syria is causing more refugees which are being brought into Britain, lavished with social housing and given benefits that should be going to our most vulnerable here in Britain.

We have hundreds of thousands of British people homeless, and the traitorous government is bringing in foreigners and housing them.

The BNP says: 'Enough is enough!'

BNP Putting British people first

You can trust the BNP to stop Immigration. We will put British people first, provide housing, rebuild our NHS, and ensure that our hard-pressed pensioners, ex-servicemen and the 1.6 Million children in Britain currently living in severe poverty are the first to receive aid.

Stop Immigration

We cannot take anymore immigrants, asylum seekers or refugees **when British people are suffering!**

Out of the European Union

Next year you can vote to GET BRITAIN OUT of the European Union. **Once out of the EU, we can regain control of our borders!**

Bring our troops home

No more loss of British lives in foreign wars and no more interfering in the affairs of Muslim countries. Reinvest the £Billions spent on foreign wars in Britain, where it's needed!

“We are a compassionate and generous people. Giving aid to others while British people suffer is fundamentally wrong. The BNP puts British people first every time because charity begins at home. This Christmas our thoughts go out to all those betrayed by Cameron’s government.”
