

PROTECT NELSON'S COLUMN

**Anti-British leftists
are stepping up their
campaign of hate
against the British
people by demanding
the destruction of
Nelson's Column in
Trafalgar Square...**

PTO 

Attack on the British people

Racist hack Afua Hirsch is so grateful to the English for giving her the rights she doesn't enjoy in her maternal homeland of Ghana, that she's repaying our kindness by demanding that our British history be erased

**FACE OF
HATE**

Time for action!

The slandering of British Hero Admiral Nelson is the latest in a series of vicious attacks on the British people in an effort to erase our history and identity. If they succeed in destroying Nelson's Column, it will embolden them to tear down everything our ancestors build for us...

BNP Chairman

Our DUTY to save our country

They've tried to ban our St George's flag, now they're trying to ban our Heroes. Brits alive today have a pact with our ancestors and those yet to be born to protect our country. We have no right to let the haters destroy it.

Defending our British Heroes

Our ancestral British Heroes fought and died to provide us with the hard-won freedoms we all enjoy today. **If you don't take a stand to stop them, no one else will.**

Britain – Love it or leave it!

The BNP share the same policy with the Conservatives and Labour – to provide those of immigrant background who wish to leave with financial assistance to do just that.

“England expects that every man will do his duty!” That was the rousing call to arms from Admiral Nelson in the victorious Battle of Trafalgar during which he lost his life. More than ever we need that British spirit to defend against this latest threat to our freedoms.
