# FIGHTING FOR ANIMAL WELFARE

**Fighting for the humane treatment of animals and livestock is something all decent people should be doing.**

British law says that chickens must be electrically stunned before slaughter to ensure that the death of the animal is painless and humane.

It's wrong on every level that Labour and Conservative governments allow the horrific practice of ritual slaughter.

This barbaric practice highlights the need for one set of laws governing everyone equally with no exception from British law on religious grounds, because it's fair and right.

**Many of these chickens are likely destined for halal slaughter to cater for this growing market**

**This inhumane process is painful and barbaric and brings shame on Britain**
