

**STOP
LABOUR**
STEALING
OUR WHITE
CHRISTMAS

If Diane Abbott, the Labour Party and the Establishment get their way, white children will have no future in the country their ancestors built and spilled their blood time and time again to defend and pass down to their descendants.

Diane Abbott is one of the most privileged women in Britain. Wealthy and successful in the Labour Party because of the colour of her skin.

This despicable woman is hell-bent on racially discriminating against indigenous Brits because of the colour of our skin.

They're stealing our children's future

This Christmas, rather than wishing our children good will, the Labour Party has decided to steal their future instead.

At the 2017 Labour Party Conference, **Shadow Home Secretary, Diane Abbott, announced plans to ban white candidates from standing for parliament in order to flood it with 'people of colour' – in other words, ANYONE who is NOT white.**

Furthermore, Establishment political pundits have encouraged voters to embrace anti-white racism by voting for ANY non-white candidate regardless of his or her political persuasion.

Diane Abbott and the Establishment have made race the focus of their attacks. It's a truly disgusting assault on the indigenous British people and one designed to snatch the future of self-determination from the people who built this country.

There is NO ONE else to speak out against the Labour Party's racist agenda. All the other political parties are colluding with the racist scheme either because they agree or by way of cowardice.

The BNP is the ONLY hope for the indigenous British people. In 2018, we trust you will give the BNP your loyal and unswerving support in our collective fight to protect our British future.

BNP PUTTING BRITISH PEOPLE FIRST

Stop ALL Immigration – 85% of Brits agree

Pressure on housing, schools places, hospitals, transport, welfare and social security is far too great. That's why the **BNP will introduce a National Security Moratorium** stopping all further immigration into Britain until the current mess can be sorted out.

Protect British people

The BNP is the **ONLY** political party to have developed a radical and comprehensive plan to deal with the Islamist terrorism that the politicians have brought down on Britain. **Enact the BNP Ten-Point Plan to Counter Islamist Terror and save the lives of British citizens!**

Local people first – every time!

The government sends £12Billion+ each year in 'foreign aid' to 20 of the most corrupt countries in the world while 1.7Million children in Britain live in severe poverty, thousands of pensioners freeze to death each winter because they cannot afford to heat their homes, and austerity cuts devastate our vital public services. It's an outrage! **BNP will stop foreign aid UNTIL all British people have a decent standard of living!**

“Without any mandate from the British people, the politicians have imposed on us their disastrous mass immigration policy. Now they’re attempting to fast-track these foreigners to positions of political power over us. It’s a policy of staggering betrayal and one that the BNP is committed to fighting every step of the way.”
