Dear Member of Parliament,

I am writing to remind you of the FACT that you were democratically elected to work for us, your constituents.

As the British electorate historically voted to leave the European Union, it is YOUR duty as our elected representative to ensure that the will of the people is carried out in line with the Brexit vote and the democratic principles of our country – regardless of your own opinions on the matter.

As your constituent I feel it only right to inform you that there have been meetings of community groups, organisations and individuals – including extended family and friends – to plan a course of action, should our elected parliamentary representative, you, betray the will of their constituents.

A lot of people are closely monitoring your voting patterns in the coming weeks on all issues pertaining to our withdrawal from the European Union.

Should you vote or speak against Leaving the EU, I can assure you that the leading activists in our community will be mounting a legitimate democratic campaign to highlight your betrayal of Brexit aimed at mobilising voters to ensure you will be ousted as MP in the next election.

I am sure that you will agree that it is your clear duty to ensure that the democratic decision of the British people is carried out and that you, as my MP, will be doing all you can to ensure that we do indeed LEAVE THE EUROPEAN UNION!

To avoid any confusion, can you please write back to me, putting on record that your clear duty in the Brexit proceedings is to ensure that Britain leaves the EU, in accordance with the legally binding democratic decision of the British people.

Yours sincerely,
